

Methylarginine proximity outside annotated domains

Outside-domain distance from nearest edge

Domain-distal >40 aa

q=0.05

Domain edge 21-40 aa

q=6 × 10⁻⁵

Domain edge 11-20 aa

q=0.1

Domain edge 6-10 aa

q=0.1

Domain edge ≤5 aa

q=0.05

-0.4

log2(OR) vs same-protein non-methyl arginines outside domains

Out-of-domain methylarginines only; compared with non-methyl arginines from the same methylated proteins.
