

Methylarginine frequency in disordered outside-domain bins

Outside-domain distance from nearest edge

Domain-distal >40 aa

3280/38119 (8.6%)

Domain edge 21-40 aa

512/4876 (10.5%)

Domain edge <=20 aa

623/5831 (10.7%)

% of arginines methylated in bin

Disordered outside-domain arginines only; denominator = methylated + non-methyl arginines in each bin.
